## UPGRADES/CHANGES FROM 2015

Same great price point, spec and quality

## TOP 5 THINGS YOU NEED TO KNOW

Shimano's new Claris 2400 8-speed group pulls down features including Dual Control shifters and wide range derailleurs to provide a reliable and dependable drivetrain with precise shifting.

Shimano Claris 50/39/30 crank offers the rider a wider, more comfortable gear range than standard-sized or compact-sized double chainring'd cranksets.

The 28 and 32 spoke front and rear wheels assure a reliable and durable ride for riders of all sizes. They ride smoothly too. Thanks to their higher spoke count, these wheels do not require super-high tensioning to keep the wheel in true, yielding a more supple, less harsh feel.

Tektro long reach brakes feature secure all-conditions stopping performance and offer enough clearance for wider tires (up to 32mm) and fenders.

Our Jamis anatomic handlebar offers comfort in all riding positions; our 3D forged alloy stem is light and delivers secure steering control.
